

## FM Files

Suitable for film and flexo plates. Railex™ FM files are made from a dual coloured board, with the white inner being pH-neutral to help protect valuable films. The file is supplied with a flexible label holder, which takes an interchangeable label, which itself is available in seven colours. We recommend no more than 80 FM files per Quickrack rail.

## Specification

- Available to store material from A4 to 795x1030mm
- Manufactured from robust dual-coloured carton board
- 445 microns thick
- 10mm capacity
- Easy access front flap
- Easy to fit label holder
- PH-neutral material
- Built-in dust cover

DESIGNED AND MADE IN BRITAIN

## PD Hook-on Files

**These sturdy Railex™ PD Files are ideal for a variety of contents such as films, wraps and print plates. They are equally useful for storing proofs and first-off samples.**

They hang on rails by way of two or four sturdy Railex™ hooks, depending on size. Millions of these files are in daily use around the world. The file itself is manufactured from 380 micron presspahn, and has a 25mm storage capacity. PD files are available in 15 standard sizes, and we recommend storing no more than 50 PD Files per Quickrack rail.

## PP Hook-on Files

**Railex™ PP Files are specially designed for the storage of cutting foils and PCB templates.**

The transparent polypropylene hanging files are available in sizes from A4 to 622x746mm. The files are anti-static, rip-resistant and environmentally friendly. They are also ideal for use in clean rooms. Each file has a dust-excluding flap with two hook-and-loop fasteners. Label holders are available as an optional extra. PP Files are available in 6 standard sizes and we recommend storing no more than 80 PP Files per Quickrack rail.

## Quickrack Storage System

The Railex™ Quickrack storage system is unique. With easy, fast assembly and made of strong, steel extrusions, the racks can support between 800kgs and 1000kgs of Railex™ hook-on files complete with contents.

Available in a choice of two colour combinations: blue/orange or grey.

## MiniQuickrack Storage System

The Railex™ MiniQuickrack is available with a height of 970mm and with 2 different depths of 470 and 625mm. It also includes your choice of one or two rails and a melamine working board.

Available in a choice of two colour combinations: blue/orange or grey.
